Preface	7
Summary: WIT report 2006	9
I Imaging	11
• 2D CO CRS imaging for multicomponent data recorded by the VSP geometry	13
<i>M. von Steht</i>	
• Application of SA and VFSA global optimization algorithms for search of the 2-D CRS stacking parameters	24
<i>G. Garabito, J. C. Cruz, and P. Hubral</i>	
• CO CRS stack: a new strategy to simulate CO sections based on traveltime approximation for a diffracted central ray	32
<i>G. G. Garabito, P. Chira-Oliva, J. C. Ribeiro Cruz, and M. Costa</i>	
• Velocity model building: A comparison between prestack Stereotomography and NIP-wave tomography	46
<i>K. Meier, S. Dümmong, D. Gajewski, and C. Hübscher</i>	
• Application and comparison of the CRS stack based minimum-aperture Kirchhoff migration in time and depth domain	59
<i>M. Kienast</i>	
• Diffraction traveltimes as moveout function for velocity analysis	75
<i>T. Klüver</i>	
• Time-to-depth mapping and imaging of time-migrated seismic data with inherent velocity estimation	92
<i>E. Iversen and M. Tygel</i>	
• Zero-offset seismic amplitude decomposition and migration	107
<i>B. Ursin and M. Tygel</i>	
• Vertical image waves in elliptically anisotropic media	115
<i>J. Schleicher, A. Novais, and J. C. Costa</i>	
• Source localization by diffraction stacking	129
<i>D. Anikiev, D. Gajewski, B. Kashtan, E. Tessmer and C. Vanelle</i>	
• Traveltime-based true-amplitude migration in anisotropic media	138
<i>C. Vanelle and D. Gajewski</i>	
• Poststack True Amplitude Wave-Equation Migration	145
<i>G. Melo Silva, J. Schleicher, and A. Novais</i>	
• A Comparison of Imaging Conditions for Wave-Equation Shot-Profile Migration . . .	159
<i>J. Schleicher, J. C. Costa, and A. Novais</i>	
• Wide Angle FD and FFD Migration using Complex Padé Approximations	172
<i>D. Amazonas, J. C. Costa, R. Pestana, and J. Schleicher</i>	

• New insights into the crustal structure of the North German Basin from reprocessing of seismic reflection data	183
<i>M. Yoon, M. Baykulov, S. Dümmong, H.-J. Brink, and D. Gajewski</i>	
II Rock physics and waves in random media	197
• An AVO indicator based on the Impedance Concept	199
<i>V. Grosfeld and L. T. Santos</i>	
III Other topics	207
• Sensitivity Analysis for Stereotomography in Elliptic and Anelliptic Media	209
<i>B. S. S. Barbosa, J. C. Costa, E. N. S. Gomes, and J. Schleicher</i>	
The Wave Inversion Technology Consortium	223
WIT research personnel	225
List of WIT sponsors	231
